Worldmade Product Range

Wheelchairs

The Worldmade Active Folding

Worldmade, a programme run by Motivation, is a non-profit supplier of appropriate wheelchairs and other mobility products for people with disabilities, working through a network of service partners all over the developing world.

Worldmade essentially helps organisations in low income countries to establish or upgrade wheelchair services. Worldmade can uniquely supply organisations with a wide range of mobility products, offering people with disabilities a choice of product that is most suited to their needs.

Following a short introductory training programme, practitioners will have the basic skills and knowledge to carry out safe assessments of wheelchair users and prescribe, assemble and fit the full Worldmade product range.

Worldmade provides a range of high quality and low cost products which are:

- Shipped flat packed
- Easy to assemble
- Fitted to the size of each individual
- Have a range of adjustable features
- 3 – 5 years' lifespan
- Locally repairable

Since 2005 Worldmade wheelchairs have been distributed to over 30 countries. To find out further information about Worldmade products, services and training please email Natalie Snell, Worldmade Coordinator, at info@worldmade.info.

A four wheel foldable wheelchair designed for semi-urban/urban areas. The two large front castor wheels help manoeuvre over uneven ground. This product is available in four sizes and comes with a contoured pressure relieving cushion and tension adjustable straps.

The Worldmade Standard Folding

A basic wheelchair that is most suited for temporary or short term use (for example emergency relief or for use in hospitals). This product is most appropriate for more urbanised and indoor environments.

The Worldmade Rough Terrain

A three wheel active wheelchair with a large rubber castor wheel and long wheelbase which allows for safe and stable propulsion over uneven ground. This product comes in four sizes, provides good postural support, comfort and is supplied with a contoured pressure relieving cushion.

The Worldmade Sport

Suitable for wheelchair basketball or tennis, the Sport wheelchairs have been designed to help develop wheelchair sports programmes and teams in developing countries in a simple and affordable way. They are available in four different sizes and have lightweight steel frames.

Tricycles

The Worldmade Clip-on Tricycle

A quick release clip-on clip-off attachment which converts the Rough Terrain into a tricycle, allowing the user to travel greater distances more effectively.

Close-up of the locking system.

The Worldmade Tricycle

A hand powered tricycle which has height adjustable foot rests, pedals and backrest so that the user can have an optimal riding position and maximum comfort. It has a basic cushion and sculpted backrest to provide some postural support and comes with a built-in rear carrier.

Supportive seating

The Worldmade Portable Supportive Seat

A size adjustable supportive chair intended for use by infants who need extra postural support. This product comes with many features such as a tray, two tilting positions and headrest. It can be used on the floor or worktop and is easy to transport.

The Worldmade Wheeled Supportive Seating Range

A range that provides similar functions to the Portable but each unit is built onto the Rough Terrain chassis to enable mobility. This range is available in three sizes and can fit infants up to young adults. The seating unit can clip on and clip off for ease of transportation.

An optional static base can also be provided.

“I like very much the freedom to go out with a group of children of my own age outside and play, and to go into town”

Daniel - Romania

“It empowers people to realise their potential”

Jonathan - Zimbabwe
